Solution Overview

temenos

- ❑ **Based on Temenos Transact, this is a preconfigured version of the software together with extension applications. The solution is built for financial institutions such as:**
 - Financial Inclusion
 - Community Banks, Credit Unions and Mutuals
 - Retail Banks (Mass Market)
 - Non-Bank Financial Institutions
 - Start-up banks

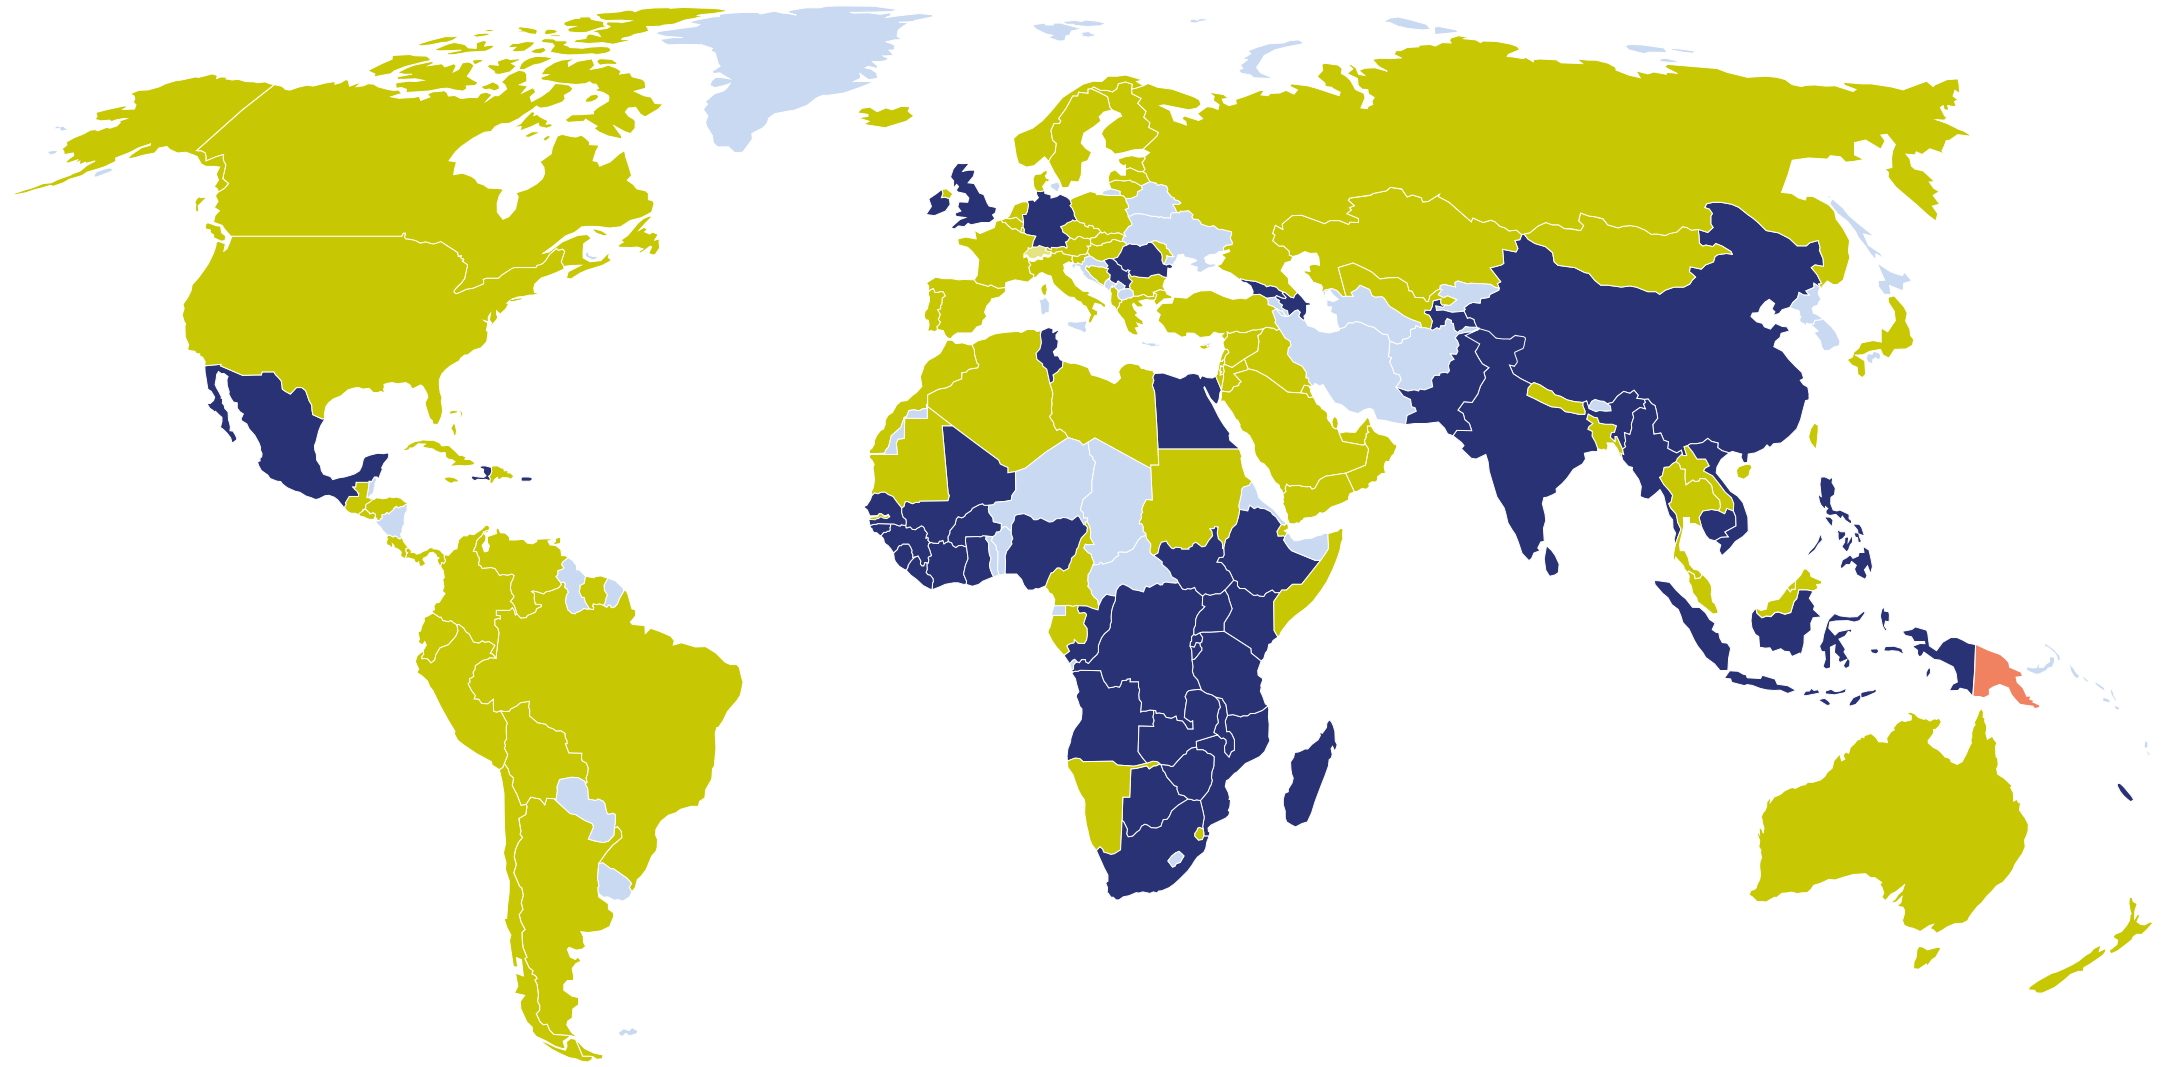

- ❑ **Offered on-premise or on the Cloud with defined implementation times and resource requirements.**

- ❑ **Implementations:**
 1. Create Users and subscribe to Tasks
 2. Configure Products
 3. Develop interfaces to 3rd party solutions
 4. Edit Financial Reports
 5. Train the end users

- ❑ **Upgradable, mature and trusted solution to 337 client sites in 53 countries.**
